

Anibal Agustin Palomo Gaete

Software Engineer

Santiago, Chile | anibal.palomo.21@gmail.com | +56 9 5096 4237 | <https://github.com/AnibalPal>

SUMMARY

Software Engineer with 3+ years of experience in web software development. Currently looking for a Full Stack software developer role or related.

EXPERIENCE

Independent Game Developer February 2026 – Present

Independent team project — Santiago, Chile

Technologies used: Godot, GDScript, GitHub, Aseprite, Blender.

- Currently developing a videogame using the Godot game engine.
- Working in a team of 3, with me being the lead programmer.

Full Stack Developer June 2025 – December 2025

Arcadi — Santiago, Chile

Technologies used: Python, JavaScript, HTML, CSS, SCSS, Ruby on Rails, Vue.js, Heroku, GitHub, GitHub Actions, Trello, AI-assisted development (Claude), Playwright, Selenium, MySQL.

- Maintained and extended the company's finance web application adding features and fixing bugs, also updated 6+ years old dependencies.
- Implemented end-to-end automated tests for 3 critical paths of the application which were integrated to a GitHub Actions CI pipeline that runs on every code change.
- Maintained and improved a 24/7 web scraping pipeline, resolving failures to keep data collection running.
- Other tasks like providing support to the operations team by fixing their custom tool and providing customer support when needed.

Full Stack Developer May 2024 – October 2024

Nirvana AI SPA — Santiago, Chile

Technologies used: Python, JavaScript, Typescript, React, HTML, CSS, GitHub, Clickup, AWS S3, AWS Lambda, AWS CloudWatch, AWS DynamoDB, MySQL, Figma.

- Helped the development of the NirvanaAI web application, a platform to create and manage AI agents.
- Developed the core frontend UI and navigation, also features like authentication with different user types, the chat system and a file system.
- Developed APIs to connect Amazon Web Services (AWS) and other custom backend AI services to the frontend.

Full Stack Developer Freelance February 2022 – October 2024; *ran concurrently with the NirvanaAI role from May 2024*

MyFutureAI — Santiago, Chile

Technologies used: Python, JavaScript, Typescript, React, HTML, CSS, GitHub, Clickup, MySQL, Prodigy, Figma.

- Built and maintained web pages and web applications.
- Started as an intern doing data labeling using Prodigy for AI solutions before moving to a software developer role.

EDUCATION

Professional Engineering Degree in Computer Science (Titulado en Ingeniería Civil en Informática) 2013 – 2022
